- The website will ask if you are OK with Textbook Substitutions.
- This is students preference.
 - If you choose yes, the book will be replaced with an available option. For example, if you choose a USED book but only NEW is available in store, it will be replaced with the NEW. This may affect the totla price of your order.
 - If you choose “do not replace” and that option isn’t available in store, another Follett store will fill the order.

OK with Textbook Substitutions?

Because our textbook inventory can change, if the textbook condition (new/used) you selected is unavailable, we can replace it with the condition available. This may affect the total price of your order.

Yes! Replace my book with the condition available. (Recommended)

Do not replace my book. The unavailable item(s) will be cancelled from my order.
